

# Instructional Methodologies Index

## Instructional Methodologies Indexed with the *Instructional Guide for the California Preschool Learning Foundations, Volume 2*

Each learning experience is written to include a variety of instructional methodologies. This is intended to provide varied learning experiences for students as they encounter the foundations. It also provides another variable for faculty to use in deciding which learning experiences will best suit the needs of their students and programs.

In this instructional guide, for the first time, these methodologies are identified for each learning experience, and are indexed so that faculty can get an overview of which methodologies are used across all the learning experiences.

To locate page numbers for each learning experience listed in the following index, refer to the instructional guide Table of Contents or the Table of Contents for each specific domain: Visual and Performing Arts, Physical Development, and Health.
