

## Student Learning Outcomes Index

### Student Learning Outcomes and CAP Lower Division Eight Courses Mapped onto the *Instructional Guide for the California Preschool Learning Foundations, Volume 3*

To support faculty in deciding how and where they can best use the *California Preschool Learning Foundations, Volume 3* in their course work or across their program, the Student Learning Outcomes (SLOs) developed by the Curriculum Alignment Project (CAP) for the eight core lower division early childhood courses have been mapped onto the learning experiences for each domain in this instructional guide. Each Learning Experience Preview Page provides course suggestions for instructor consideration.

More information about the Curriculum Alignment Project can be found on its website: [http://www.childdevelopment.org/cs/cdtc/print/htdocs/services\\_cap.htm](http://www.childdevelopment.org/cs/cdtc/print/htdocs/services_cap.htm).

Appendix A is a listing of the suggested CAP lower division eight courses for all learning experiences in this instructional guide with the addition of the student learning outcomes, objectives, and examples of course content and topics. These SLOs are organized by the CAP core lower division early childhood courses.

This is not an exhaustive list, and faculty might find ways to use the learning experiences to address SLOs by means other than what has been indexed. Working through these selected learning experiences does not guarantee the achievement of any student learning outcome or objective; it is understood that students achieve student outcomes through repeated engagement with information and experiences that build competence.

To locate page numbers for each learning experience listed in the following index, refer to the Instructional Guide Table of Contents.

#### ***California State University and University of California***

The Curriculum Alignment Project (CAP) course and student learning outcomes (SLO) mapping with this instructional guide is done with the understanding that not all institutions will use these particular SLOs or objectives. This is particularly true for faculty at the California State University (CSU) and University of California (UC) campuses. The SLOs do provide learning outcomes that can be used selectively or with adaptations for courses at the CSU and UC campuses and indicate what can be accomplished by students through using the key topic learning experiences in this instructional guide.

## CAP Lower Division Eight Courses and Student Learning Outcomes Indexed with the *Instructional Guide for the California Preschool Learning Foundations, Volume 3*

Course: Child Growth and Development

Curriculum Alignment Project’s (CAP) Lower Division Eight Courses and Student Learning Outcomes (Revised February 2012)	Instructional Guide Domains and Learning Experience in Which CAP Student Learning Outcomes Are Addressed
<b>Course: Child Growth and Development</b>	<b>History–Social Science</b>
Describe major developmental milestones for children from conception through adolescence in the areas of physical, psychosocial, cognitive, and language development.	<ul style="list-style-type: none"> <li>• Learning Experience 2</li> <li>• Learning Experience 3</li> <li>• Learning Experience 4</li> <li>• Learning Experience 5</li> <li>• Learning Experience 9</li> </ul>
Identify cultural, economic, political, historical contexts that affect children’s development.	<ul style="list-style-type: none"> <li>• Learning Experience 1</li> <li>• Learning Experience 3</li> <li>• Learning Experience 6</li> <li>• Learning Experience 7</li> <li>• Learning Experience 8</li> </ul>
Identify and compare major theoretical frameworks related to the study of human development.	<ul style="list-style-type: none"> <li>• Learning Experience 11</li> <li>• Learning Experience 12</li> </ul>
Apply developmental theory to child observations, surveys, and/or interviews using investigative research methodologies.	<ul style="list-style-type: none"> <li>• Learning Experience 9</li> </ul>
Differentiate characteristics of typical and atypical development.	
Additional Specific CAP Objectives and Course Content/Topics – See Appendix A	

**Note to faculty: See Appendix A for a detailed list of the CAP Student Learning Outcomes, Objectives, and Course Content/Topics indicated for this instructional guide’s domains and learning experiences.**
