Learning Experience 1: Connecting to Our Early Experiences in Three Strands: Self and Society, Becoming a Preschool Community Member, and Marketplace

Students reflect on their own early experiences with three strands of the history–social science domain and then interview other students to explore and compare their experiences. They then participate in a reflective discussion regarding what they learned from this experience and what it might mean for their work with young children and families.

- Learning Experience 6.....81
- Online Options82, 83, 84

 **Learning Experience 7: Exploring the Impact of Family and Culture on Children’s Development of History–Social Science Knowledge and Skills**

Students identify considerations related to children’s families, communities, and culture that can help students better understand how children might demonstrate the competencies described in the history–social science foundations.

- Preview of Learning Experience 786
- Learning Experience 788
- Online Options92, 93

 **Learning Experience 8: Identifying Family and Cultural Components in the History–Social Science Foundations**

Students hear from guest speakers or interview community members to learn more about different family, community, and cultural experiences that may impact children’s development of competencies described in the history–social science foundations.

- Preview of Learning Experience 896
- Learning Experience 898
- Online Options100, 102

 **Learning Experience 9: Exploring Examples of the History–Social Science Domain in the Early Care and Education Setting**

Students explore the examples of foundations in the history–social science domain and then engage in classroom observations to look for additional examples of the foundations in action. This learning experience is designed to help students understand that the examples in the foundations are not criteria and that children will demonstrate the foundations in many settings and ways.
