Each learning experience is written to include a variety of instructional methodologies. This is intended to provide varied learning experiences for students as they encounter the preschool learning foundations. It also provides another variable for faculty to use in deciding which learning experiences will best suit the needs of their students and programs.

In this instructional guide, these methodologies are identified for each learning experience on its preview page(s). The instructional methodologies are also indexed so that faculty can get an overview of which methodologies are used across all domains and learning experiences.

To locate page numbers for each learning experience listed in the following index, refer to the instructional guide Table of Contents.
